Senior Web Frontend Developer (f/m/d)

You are a master in your field and you attach great importance to the right user experience? Then take a central role in our development team and bring our innovative and easy-to-use platform for digital business dealings to the next level.

YOUR RESPONSIBILITIES

- Key role in an agile team for development and optimization of our SIGNificant Platform based on ASP.NET
- Collaboration with our product management and sales team to build working customer solutions
- Responsibility of our software products during the entire development process, from feature definition to release and testing periods
- Involvement in decisions for creating an engaging user experience
- Close cooperation and willingness to support our Backend Teams
- Training and mentoring new colleagues

YOUR PROFILE

- Excellent knowledge through in-depth Software Engineering and several years of programming experience in software development
- Experience in developing scalable web projects
- Experience with web technologies like HTML5, CSS, JavaScript, TypeScript
- Good knowledge in C#, .NET, ASP.NET MVC
- High demand on your code quality
- Ability to work in a team and good English skills

OUR OFFER

- Working in an exciting and innovative market environment
- Flexible working hours, uncomplicated holiday planning and home office
- Dynamic and open-minded working atmosphere with attractive benefits
- An international and motivated team that welcomes YOU!

SALARY

The salary is 53.500 EUR gross (excluding overtime) per year. We are willing to pay more, consistent with market value and dependent upon qualifications and experience.
